

ROUTES INTO SUMMER PROJECT

Dear Student,

As an introduction to your new course at Weymouth College, we would like you to produce a report/hand-out/PowerPoint presentation that identifies a selection of jobs you may be interested in as a future career.

- Select 2 jobs that you are interested in. You may wish to look at the careers websites for various organisations, or <https://nationalcareers.service.gov.uk>
- Describe both of the jobs, to include:
 1. Career choice
 2. Description of duties
 3. Personal qualities and skills needed
 4. Pay and opportunities
 5. Entry routes and training
 6. Qualifications

that are essential to pursue a career in your chosen Industry.

This project will give you a starting point to be able to set your own personal goals at the beginning of the new year.

Please can you email to the address below.
