

A2 History Summer work

Task

Find **four** or **five** sources in relation to your essay title with possibly conflicting views and evaluate their reliability.

Guidance

Using the table on Google classroom, create a record your sources;

- What it says about the issue, for example reasons for success/brutality/autocracy/divisions
- Name of the source
- A key phrase or sentence to illustrate this
- Evaluate the source for validity; is there something specific it is focusing on, is there something it is not taking into account

Use the reading list from me, resources on Google classroom and the internet

You can use published articles, books or online sources

ENSURING YOU KEEP A RECORD OF WHERE YOU HAVE FOUND THE INFORMATION
